

MarsNext

A **#reward** centric
#decentralized protocol only
made for **#community**.

What is MarsNext

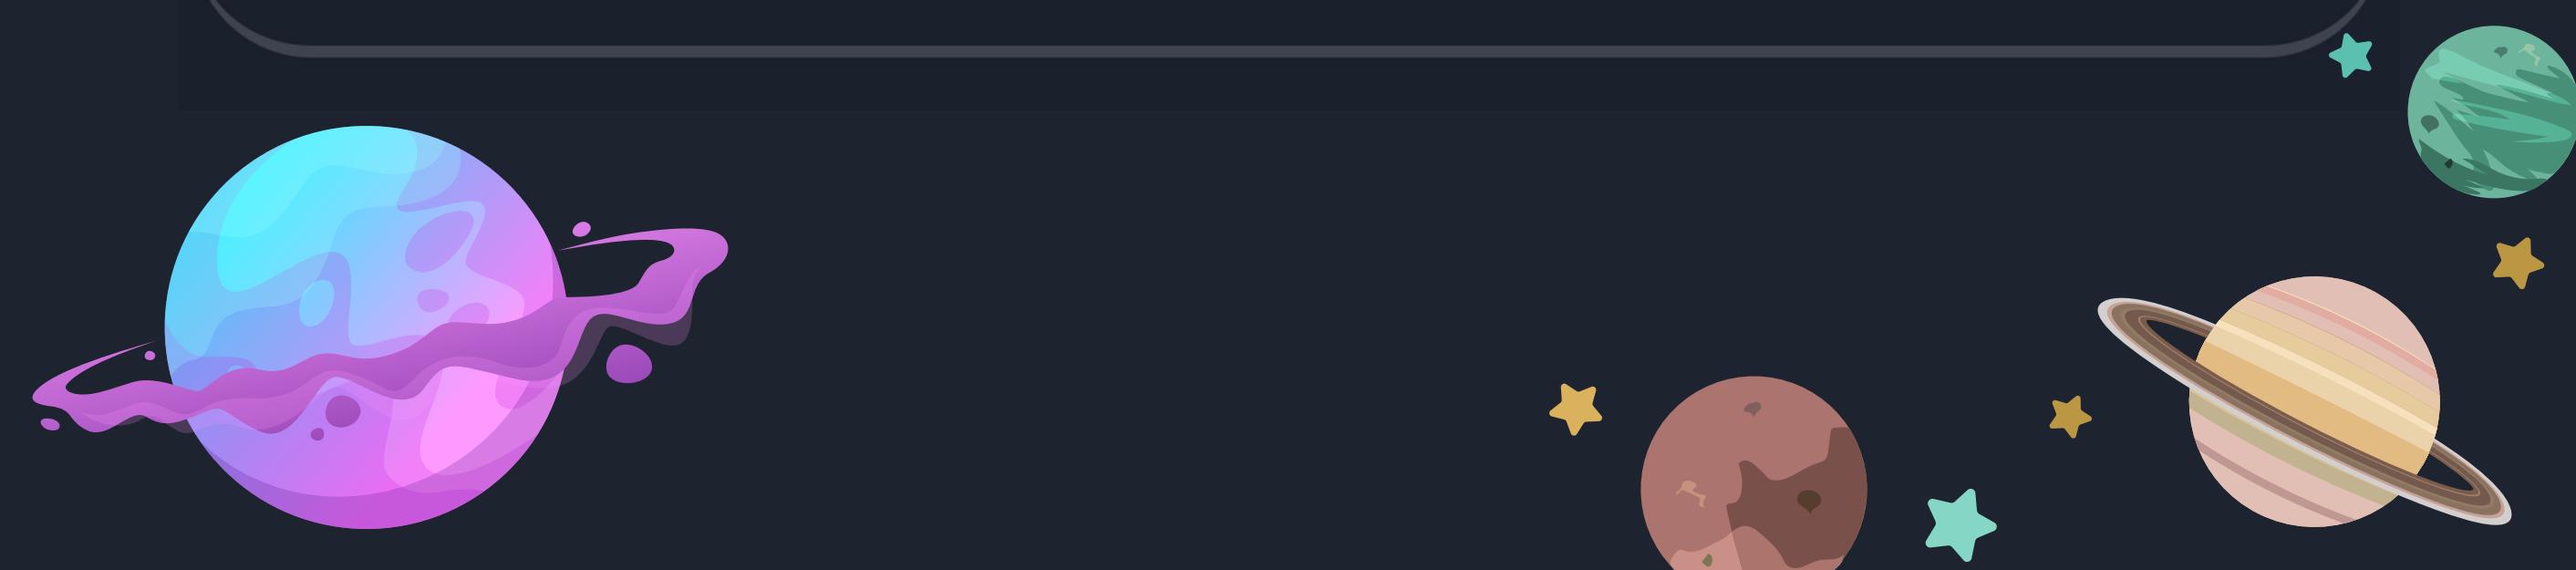

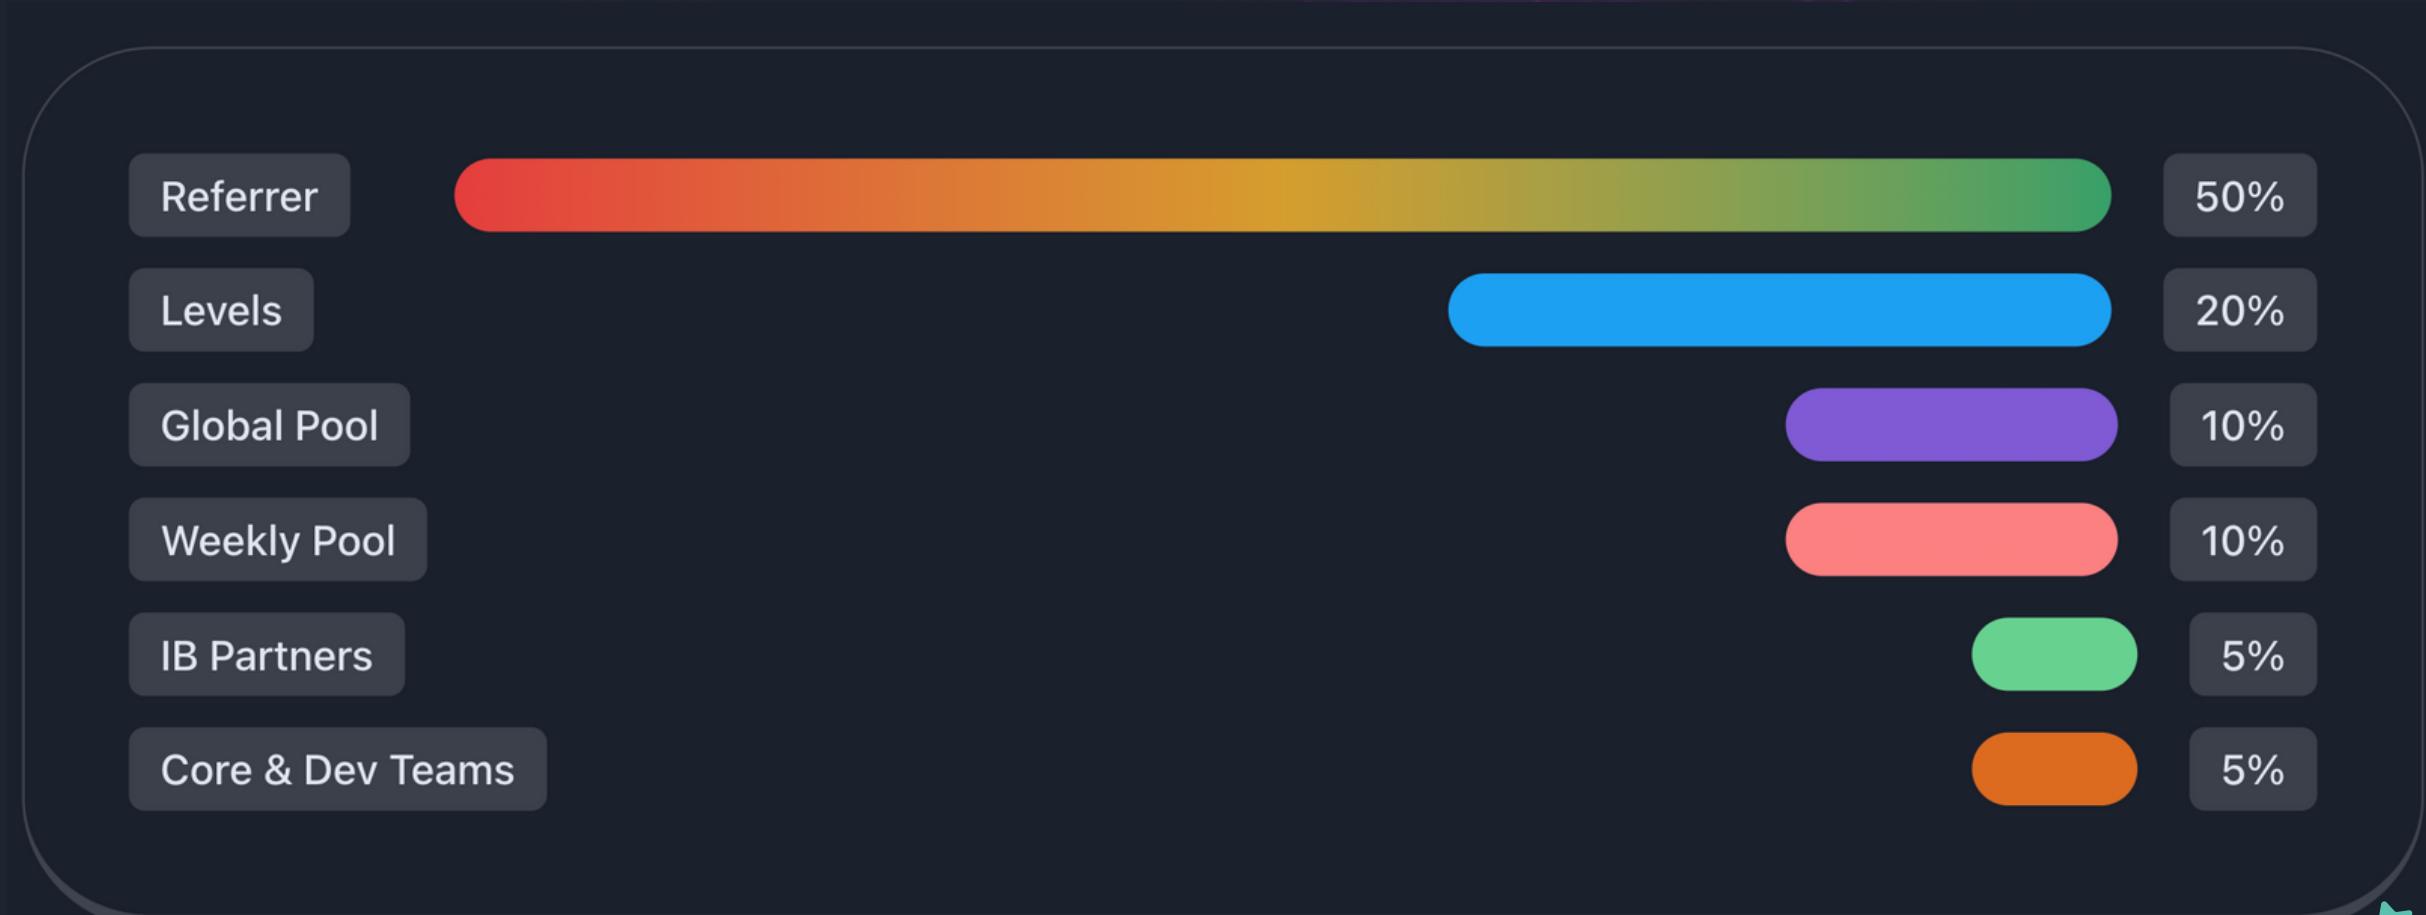

MarsNext is an innovative project operating in the dynamic world of cryptocurrencies. Our primary objective is to revolutionize the distribution of rewards within the crypto ecosystem. With a steadfast focus on efficiency, transparency, and community-centricity, our aim is to create a cutting-edge platform that maximizes benefits for all participants.

Renowned for our exceptional proficiency in crypto and blockchain programming, we boast a team of highly skilled experts who have mastered the intricacies of cryptocurrencies and blockchain technology. This expertise empowers us to deliver bespoke solutions to our esteemed community. Leveraging our proficiency in crypto programming, we develop pioneering applications, smart contracts, and decentralized systems tailored to the ever-evolving landscape of the crypto industry.

How Reward System Works

Community is everything in the #crypto space. Our aim is to enlarge our #community as much as possible. We have designed a #reward system that is fully #automated, #transparent, and #secured with the power of #blockchain technology. This ensures that our community members can be rewarded while joining together. The types of #rewards and their #distribution are as follows:

1. Referral Rewards

Referral rewards have emerged as a powerful mechanism within various industries, including the crypto space. By incentivizing individuals to refer others to a product, service, or platform, referral rewards create a win-win situation for all parties involved. The benefits of referral rewards are manifold. Our referral distributions are as follows:

50%
Level 1

Referral Distribution

**20% in
9 Levels**

1. Level 50%
2. Level 5%
3. Level 4%
4. Level 3%
5. Level 2%
6. level 1%
7. Level 1%
8. Level 1.25%
9. Level 1.25%
10. Level 1.50%

2. Global Reward

We are excited to introduce our innovative reward system, known as Global Rewards, designed to enhance user engagement and foster a vibrant community. With Global Rewards, users who successfully refer two or more users will have their address added to the global list for every alternate referee they bring onboard. We believe that this unique approach to rewarding referrals not only incentivizes active participation but also strengthens the bonds within our community.

A Random User from the Global List will get 10% of the Registration Value as Global Reward.

10%
Global
Reward
Rate

Hey!

I am the lucky one.

3. Weekly Reward

Introducing the Weekly Reward Program! Every week, a randomly selected user from the Global List will receive 10% of the total registration amount for that week. To be eligible for this reward, your address must be on the global list. This incentive is designed to increase engagements and strengthen the community. The more you refer, the more you will be added to the global list, thereby increasing your chances of receiving both Global and Weekly rewards.

A Random User from the global list will be paid 10% of the total weekly Registrations Value as Weekly Reward.

10%

Reward
Rate

Hey!
I got lucky
this time.

4. IBP Rewards

Introducing the Interactive Business Partner (IBP) Rewards, a ticket to Mars! This #reward system is designed to serve the #community. Being an IBP comes with great #responsibility as it involves working towards #growth, providing assistance, resolving issues, collecting #feedback, and #strengthening both the #community and the #system. IBPs will enjoy special #privileges throughout the entire #system, #recognizing their valuable contributions. Join us on this exciting journey where together we can create a thriving #community and reach new heights.

5%
IBP
Reward
Rate

IBP's will get 5% of each Registration Value from their team. No matter at what level or depth.

When you join with \$1000 or more you become IBP automatically.

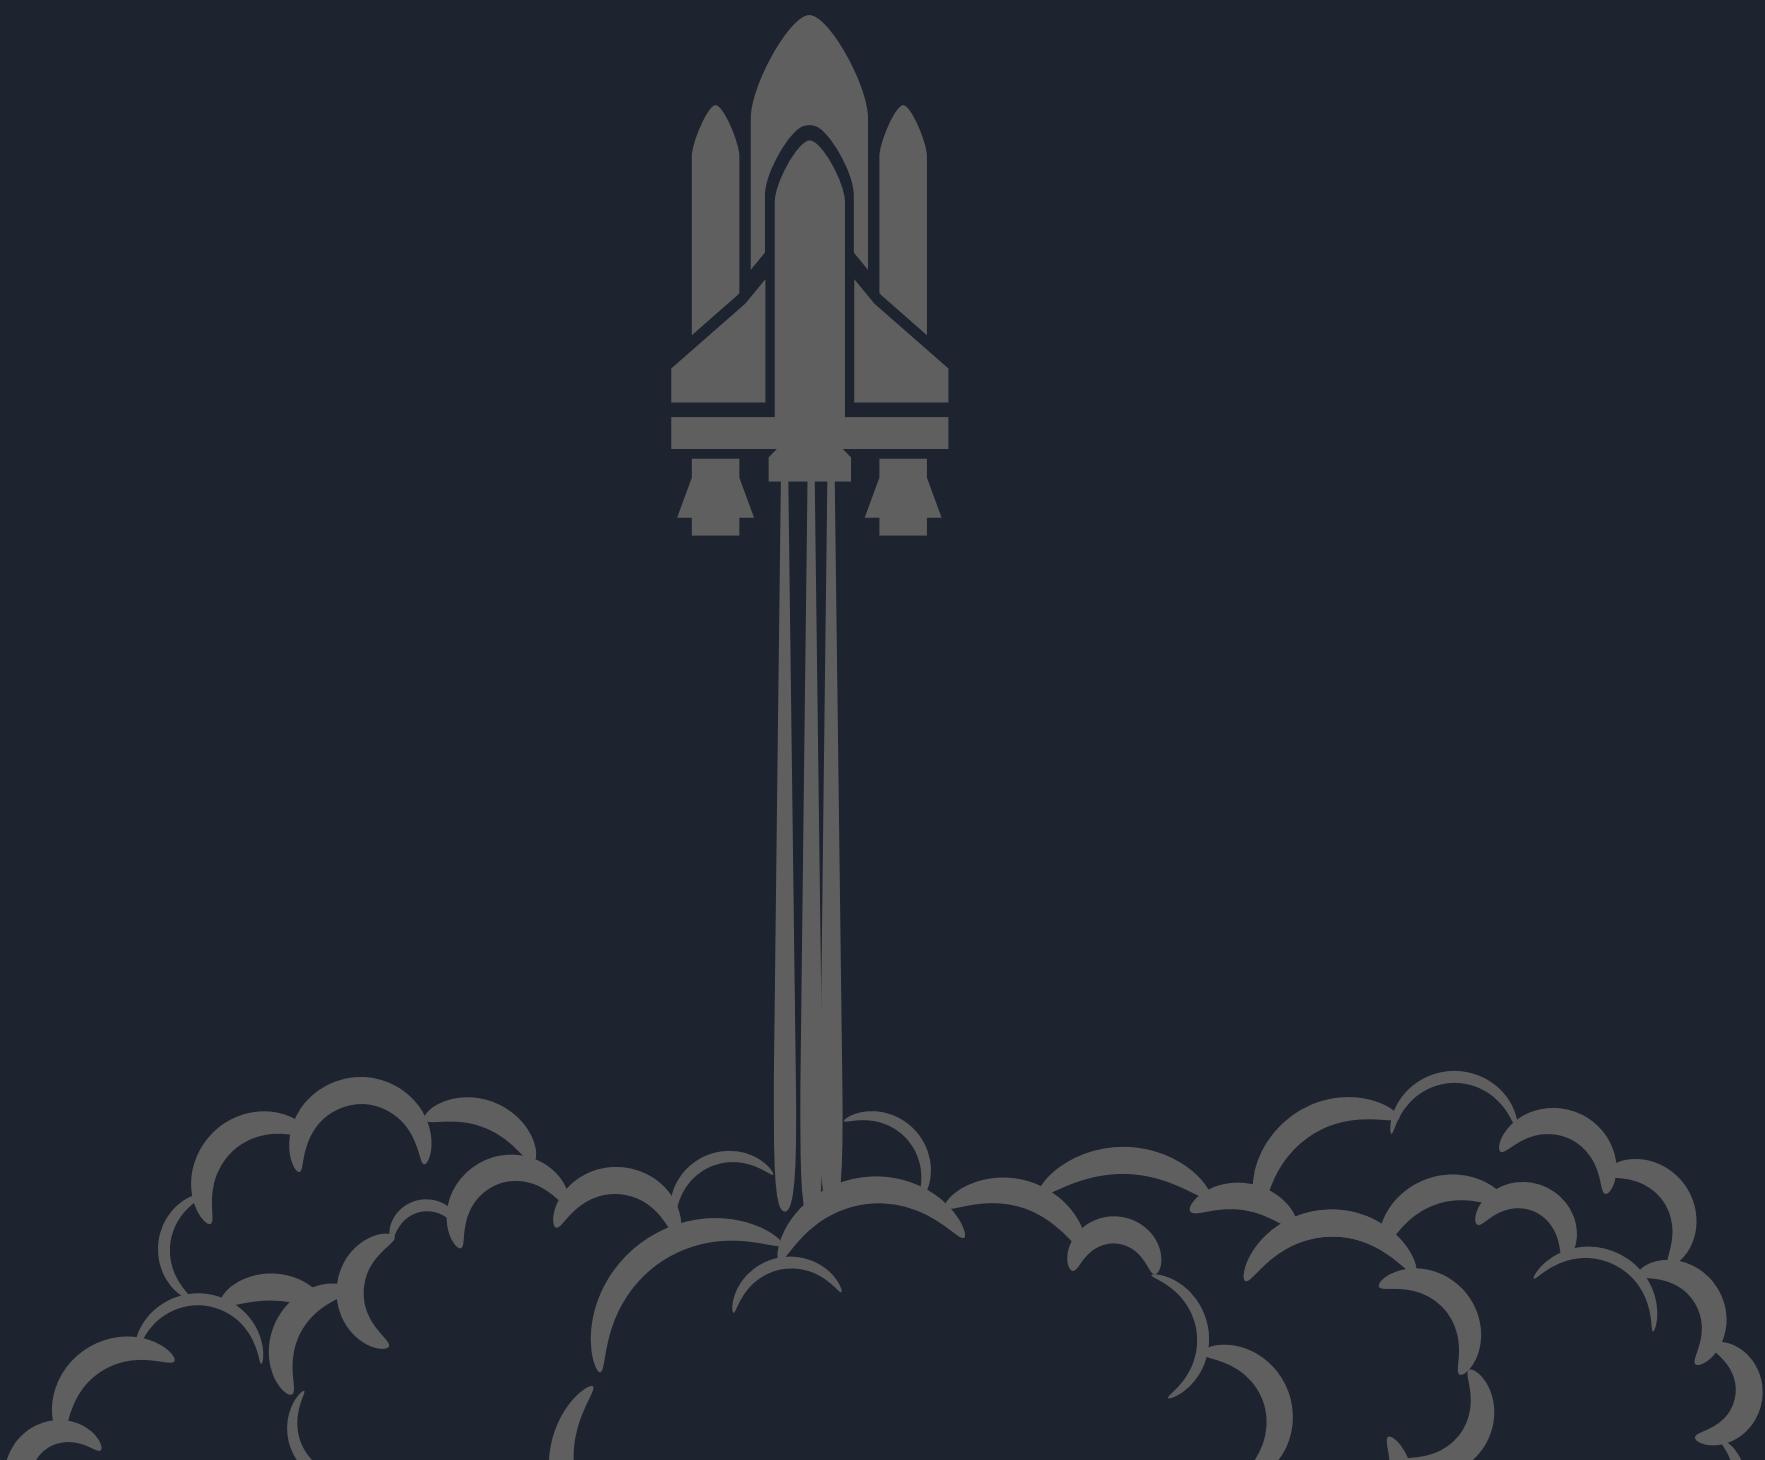

Or Community will choose you.

5. Core Members & Dev Rewards

To manage and run the entire system smoothly, 5% of each #registration will be rewarded to the #Core Members and #Dev Teams.

All the #smart contracts are upgradeable, which means admins are able to identify and rectify errors in the normal course. Ownership of the smart contracts will be transferred to the voting smart contract after all #observations by the admins.

The #project will be running as a Decentralized Autonomous Organization (DAO) where each and every #decision will be made entirely by #community #votings. This will be #implemented soon.

How to Register?

To Register just log on to www.marsnext.io and go to registration page. If you have a **#referral** link logon with that link (*Please note if you register with a referral link you get extra #benefits like, airdrop of MartianVerse Token & others*).

Steps:

1. Logon to www.marsnext.io or with referral link.
2. Connect your **#decentralized** wallet.
3. Select **#plan** (See below).
4. You must have selected **#plan #currency** value (USDT, BUSD & other) and also gas fees value of the selected **#blockchain's** native currency (usually \$1 value of **#native currency** like matic, bnb and others).
5. Hit **#register** button and confirm from the **#decentralized** wallet.

And voilla!!!! You are registered. Copy your **#referral** link from the dashboard and invite more members to get **#rewards**.

Don't forget to **#follow** us on **#social media's**:

Plans to Register >

To Register we have different `#plan` values starting from \$10 to \$1000 with different max limits as below:

< Plans to Register

What is MaxLimit?

There is Max Limit in every #plan you select. This will be multiplier of the value you #register. Let's an example, if select #plan 1 where value is \$10 and #MaxLimit is 3, the #Max Limit will \$10 X 3 = \$30. You will get max #rewards upto \$30. You will have to #register again to increase the limit.

Global & Weekly rewards are not included in the limit.

Disclaimer

Please read the following disclaimer and terms carefully: This platform is solely focused on community growth and does not involve the sale of any products, services, presales, initial DEX offerings (IDOs), or any cryptocurrency tokens in exchange for registration fees. The registration process is straightforward: you register, refer others, and earn rewards. Any tokens received, such as MartianVerse tokens or any other airdrops, should be considered as airdrops or rewards only and not as an exchange for the registration fee. These tokens are not liable for creating value, such as being listed on exchanges or exchanged for other tokens.

Please note that the values of plans, rewards, and their percentages are subject to change without prior notice or consent.

By completing the registration process, you automatically agree to the above disclaimer and terms.
